# Binance Futures

Welcome to our **Binance Futures Tutorial**. In this article we will show you how to set up your **Binance Futures Account** and set up your **Futures API Keys**.

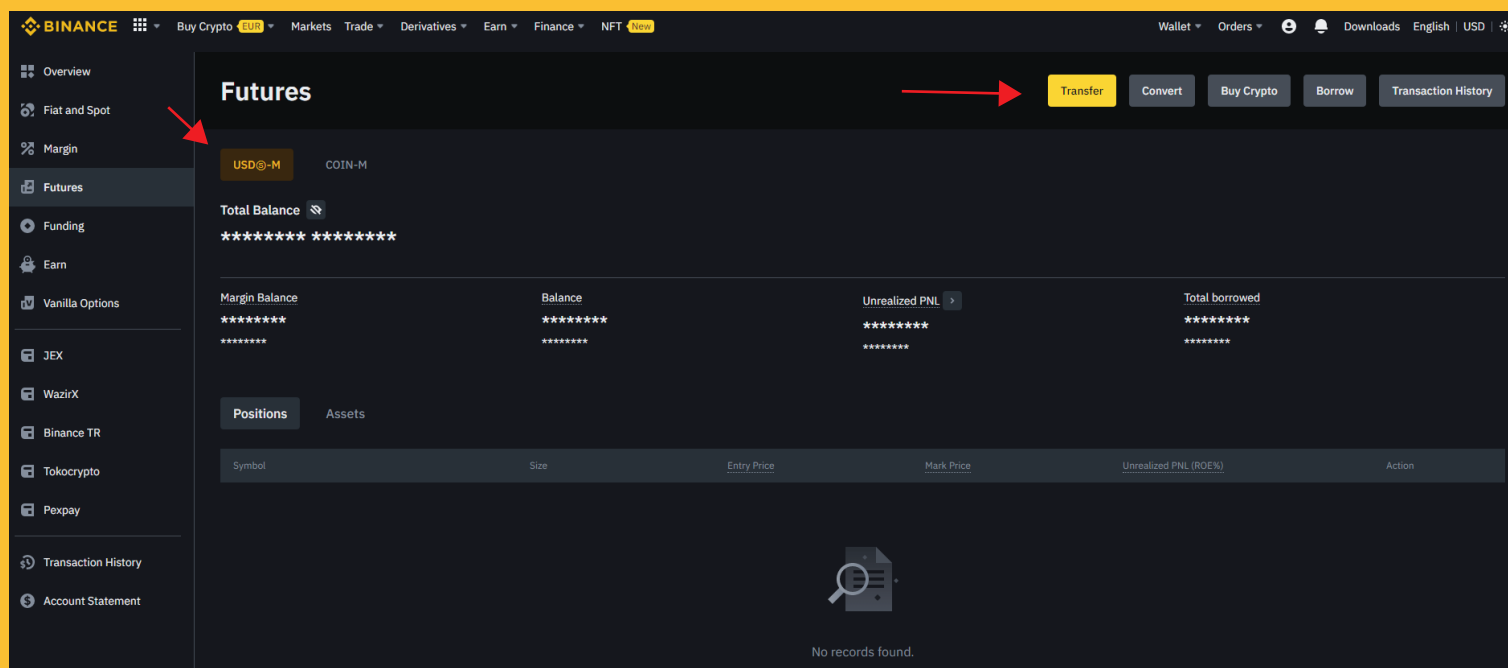

## Step 1. Enable you Futures Account

Go to your wallet icon, click on it and then click on the **Futures Icon** of the sub-menu. If this is the first time you are doing this accept the **Binance Terms** and **Enable the Account**.

## Step 2. Top up your Futures USDS-M Wallet

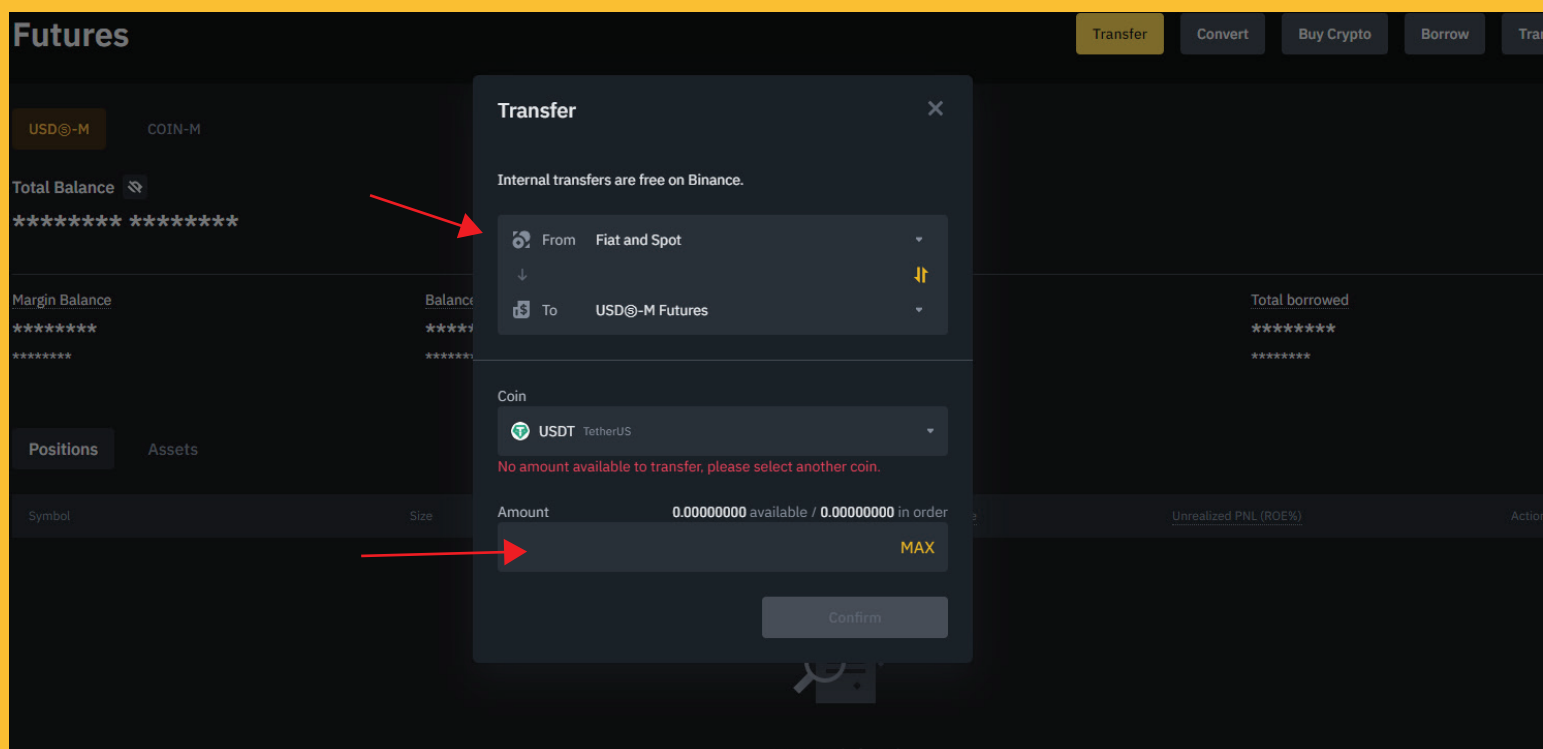

Select the USDS-M Option and then click on the yellow transfer button on the right side of the screen.

The screenshot shows the Binance Futures USDS-M wallet interface. The left sidebar contains the following menu items: Overview, Fiat and Spot, Margin, Futures, Funding, Earn, Vanilla Options, JEX, WazirX, Binance TR, Tokocrypto, Pexpay, Transaction History, and Account Statement. The main content area is titled 'Futures' and displays the 'USDS-M' wallet. The 'Total Balance' is shown as '\*\*\*\*\*'. Below this, there are four sections: 'Margin Balance' (\*\*\*\*\*), 'Balance' (\*\*\*\*\*), 'Unrealized PNL' (\*\*\*\*\*), and 'Total borrowed' (\*\*\*\*\*). The 'Positions' tab is selected, showing a table with columns: Symbol, Size, Entry Price, Mark Price, Unrealized PNL (ROE%), and Action. The table is empty, and a message at the bottom states 'No records found.'

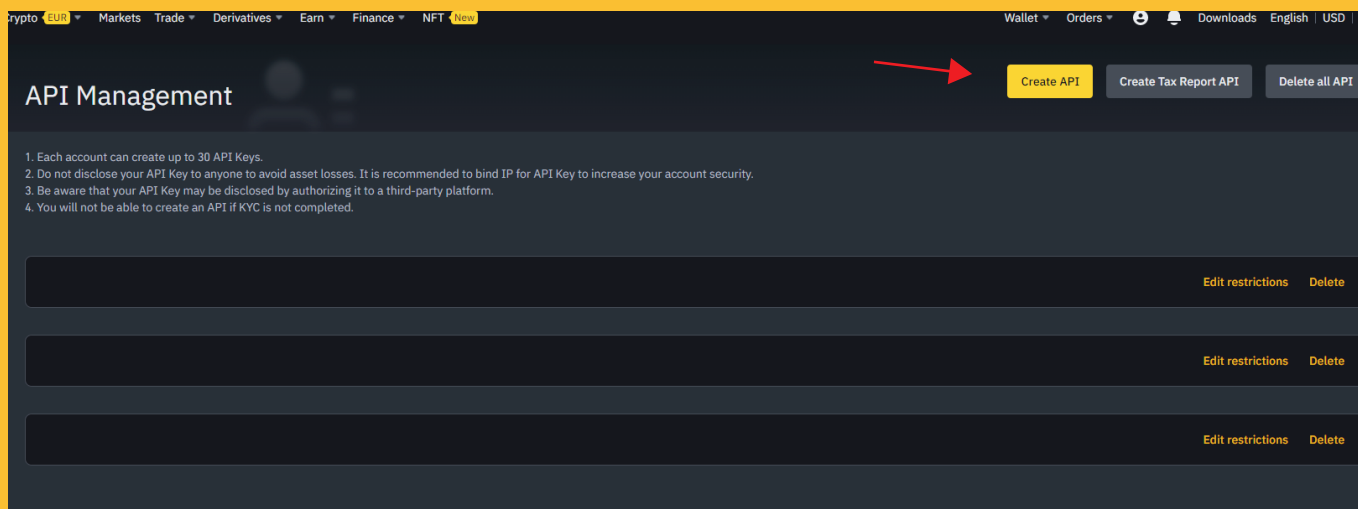

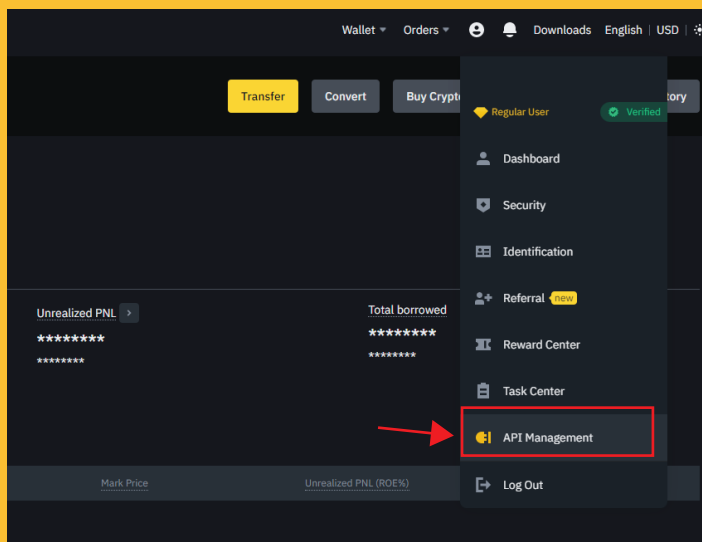

### Step 3. Send USDT to your Futures USDS-M Wallet

Keep the preselected status and just fill in the amount of USDT you wish to allocate to the USDS-M Futures Wallet.

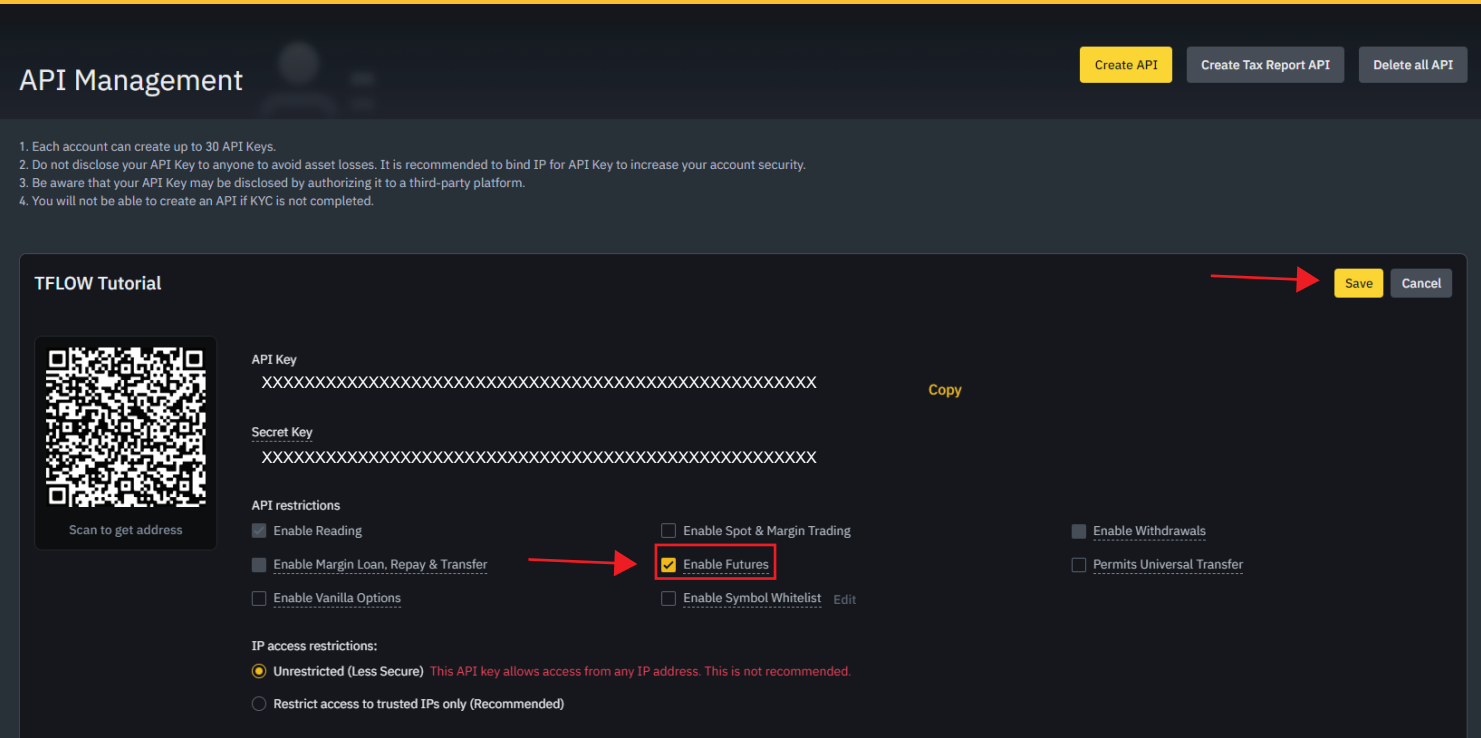

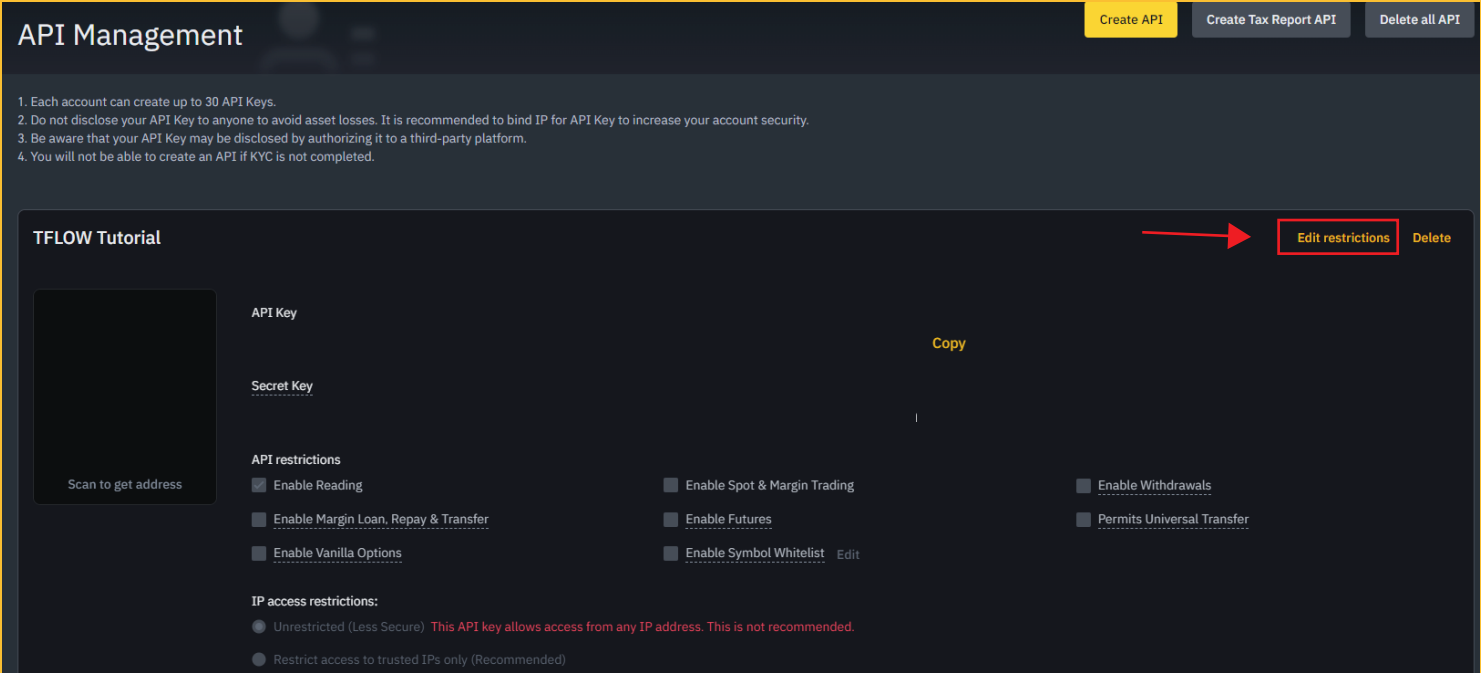

## Step 4. Create a Futures Account API

Go to the main menu and select the API Management Option at the bottom of the menu. Then select Create API

# Step 5. click on the Edit Restrictions option.

Click only on the Enable Futures Option. Then save and keep your API key and your Secret Key. Remember to place a notice on your calendar to notify you after 90 days so you can go back to the API key settings and edit it so you can select the Enable Futures option again.
